## Services

Our pharmacists provide the personalized attention you want and need, with prompt service for all your prescription needs, so you never have to wait long to fill your order. Our state-of-the-art computer system with drug screening, drug information leaflets, and online insurance billing allows for accurate and reliable service. We accept most insurance and we'll be happy to cater to your needs. Let us be your personal pharmacist.

**Thomas Drugs** certainly does its best all the time. We have the following pharmacy services available in the most efficient and effective way. For New Yorkers, Thomas Drugs only provides the best!

- ✔ Over the Counter Drugs – for services and products without medical authorization Medication and Healthcare Supplies
- ✔ Prescription Medication – we provide medication supplies for patients who have been issued prescriptions by their physician.
- ✔ Transfer Prescription – clients can transfer their account (including prescription information) to our pharmacy as we provide assistance in the continuation of your medication management.

## Prescribers

Because **Thomas Drugs** has been in business for many years, we've forged affiliations, trusts and networks with physicians who are practicing in our area. This makes it easier for patients to receive their prescription medication from our pharmacy as we can easily coordinate with their physicians.

Prescribers (physicians or other licensed healthcare professionals) who issue prescriptions to our customers are considered a crucial part of the care plan and so we coordinate with them accordingly.
